INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Immokalee Water & Sewer District
1020 Sanitation Road
Immokalee, Florida 34142

Report on the Financial Statements

We have audited the accompanying basic financial statements of the business-type activities of Immokalee Water & Sewer District (an independent special district) (the "District") as of and for the years ended September 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly,

INTEGRITY SERVICE EXPERIENCE

12621 World Plaza Lane, Building 55 • Fort Myers, FL 33907 • Phone: (239) 333-2090 • Fax: (239) 333-2097

we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Immokalee Water & Sewer District as of September 30, 2020 and 2019, and the respective changes in financial position and cash flows thereof, for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

During the fiscal year ended September 30, 2019, the District levied a special assessment of \$496,731 on system users benefiting from system improvements on State Road 29. The District did not record the transaction in the prior year. For the year ended September 30, 2020, the District reported a restatement of net position of \$496,731 as a result of this correction of an error (see Note N). The District utilizes a third party billing company which generates billing reports based on rate inputs. During the year ended September 30, 2019, an input error was made which resulted in the incorrect billing of commercial accounts. As such, during the year ended September 30, 2020, the District reported a restatement of the 2019 ending net position of \$182,138 as a result of this correction of an error. The auditor's opinion was not modified with respect to this restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages I - VIII be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information - management's discussion and analysis (MD&A) in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information - management's discussion and analysis (MD&A) because the limited procedures do not provide us with sufficient

evidence to express an opinion or provide any assurance.

Other Required Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Immokalee Water & Sewer District's basic financial statements. The required supplementary information other than MD&A - budgetary comparison information - Schedule of Revenues, Expenses and Changes in Net Position - Budget (Non-GAAP Budgetary Basis) and Actual with Reconciliation to GAAP Basis - year ended September 30, 2020 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The required supplementary information other than MD&A - budgetary comparison information - Schedule of Revenues, Expenses and Changes in Net Position - Budget (Non-GAAP Budgetary Basis) and Actual with Reconciliation to GAAP Basis - year ended September 30, 2020 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the required supplementary information other than MD&A budgetary comparison information - Schedule of Revenues, Expenses and Changes in Net Position - Budget (Non-GAAP Budgetary Basis) and Actual with Reconciliation to GAAP Basis - year ended September 30, 2020 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming an opinion on the financial statements of Immokalee Water & Sewer District that collectively comprise the Immokalee Water & Sewer District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards for the year ended September 30, 2020 as required by the Title 2 U.S. Code of Federal Regulations (CFR) Part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Schedule of Expenditures of Federal Awards for the year ended September 30, 2020 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The Exhibit 1 - Management's Response to Independent Auditor's Report to Management is not a required part of the basic financial statements but are required by Government Auditing Standards and Rules of the Auditor General. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Section 218.415, Florida Statutes

In accordance with Section 218.415, Florida Statutes, we have also issued a report dated May 19, 2021, on our consideration of Immokalee Water & Sewer District's compliance with provisions of Section 218.415, Florida Statutes. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing, and to provide an opinion on compliance with the aforementioned Statute. That report is an integral part of an audit performed in accordance with Sections 218.39 and 218.415, Florida Statutes in considering Immokalee Water & Sewer District's compliance with Section 218.415, Florida Statutes.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 19, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contract and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION
AND ANALYSIS
(MD&A)**

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

The management of the Immokalee Water & Sewer District offers readers of our financial statements the following narrative overview and analysis of our financial activities for the year ended September 30, 2020.

Basic Financial Statements

Our basic financial statements are prepared using proprietary fund (enterprise fund) accounting that uses the same basis of accounting as private-sector business enterprises. The District is operated under one enterprise fund. Under this method of accounting, an economic resources measurement focus and an accrual basis of accounting is used.

Revenue is recorded when earned and expenses are recorded when incurred. The basic financial statements include a statement of net position, a statement of revenues, expenses and changes in net position, a statement of cash flows, and a reconciliation of operating profit (loss) to net cash provided by operating activities. These financial statements are followed by notes to the financial statements. In addition to the basic financial statements, this report also contains required supplementary information pertaining to budgetary reconciliations.

The statement of net position presents information on the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of revenues, expenses, and changes in net position reports the operating revenues and expenses and nonoperating revenues and expenses of the District for the fiscal year. The difference, the net income or loss, is combined with any capital grants to determine the increase or decrease in net position for the fiscal year. The increase or decrease, combined with the net position at the end of the previous year, total to the net position at the end of the current fiscal year.

The statement of cash flows reports cash and cash equivalent activities for the fiscal year resulting from operating activities, capital and related financing activities, noncapital and related financing activities and investing activities. The net result of these activities added to the beginning of the year cash balance, total to the cash and cash equivalent balance at the end of the current fiscal year.

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

The information contained in the condensed financial information table is used as the basis for the discussion presented on the following pages, surrounding the District's activities for the fiscal year ended September 30, 2020.

Financial Highlights

- The District completed a rate study and adopted the related rate increase of 3% per year for FY 2020-2022. Rate increases are effective on October 1, 2019, October 1, 2020 and October 1, 2021.
- The District ended the year September 30, 2020, with a net position of \$42,074,709 of which \$25,758,542 represented the net investment in capital assets and \$12,994,264 was unrestricted. The ending net position was \$1,918,143 more than the net position at the beginning of the year. This was primarily the result of the implementation of the previous rate increases.
- The District ended the year September 30, 2019, with a net position of \$40,156,566 of which \$25,012,497 represented the net investment in capital assets and \$12,961,489 was unrestricted. The ending net position was \$3,143,827 more than the net position at the beginning of the year. This was primarily the result of the implementation of the previous rate increases.
- The District had profit before capital contributions, for the years ended September 30, 2020 and 2019 of \$757,916 and \$1,331,695, respectively.
- The District has minimized interest expense, because of utilizing low interest bonds/loans for capital projects funded through USDA Rural Development. These interest rates range from 2.25% to 5.125%. The projects are a combination of loans and grants with the highest grant ratio to date being at 57% of the total project. The Series 2018 Bond had the lowest interest rate ever received by the District at 2.25%.
- The District ended the year September 30, 2020 with cash and cash equivalents and investments of approximately \$16,971,903. However, only \$12,274,927 of this amount is available for operations, with the remainder of these assets being restricted for specific purposes and unavailable for the District's general use.
- The District ended the year September 30, 2019 with cash and cash equivalents and investments of approximately \$15,948,815. However, only \$11,852,148 of this amount is available for operations, with the remainder of these assets being restricted for specific purposes and unavailable for the District's general use.
- The statement of cash flows identifies the sources and uses of cash activity for the fiscal year. For fiscal year 2020, cash and cash equivalents increased by \$997,575 compared to the year ended September 30, 2019. This change resulted primarily from the receipt of grant funds to fund the cost of a capital project. The servicing of the District's debt resulted in the spending of cash of nearly \$1,985,956.
- The statement of cash flows identifies the sources and uses of cash activity for the fiscal year. For fiscal year 2019, cash and cash equivalents increased by \$2,312,620 compared to an increase of \$2,035,541 for the year ended September

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

30, 2018. This change resulted primarily from the receipt of grant funds to fund the cost of a capital project. The servicing of the District's debt resulted in the spending of nearly \$1,964,872.

Revenue

As in previous years, the wastewater service revenues make up more than half of the revenues, accounting for 51% in 2020 and 51% in 2019. Water revenue accounted for 36% in 2020 and 36% in 2019. Meter service charges, late fee charges, reconnection fees, and miscellaneous revenues also remained constant between the two years. Cross connection control fees remained at 3 % in 2020 and 2019.

The District was successful in receiving an increase in the District boundaries by the Florida Legislature, during the Spring 2005 session. This change in the boundaries is expected to result in increased opportunities for new users, in future years. We will be working on a revised capital improvement plan, in conjunction with the Immokalee Master Plan, to identify the needs within the next fiscal year.

Expenses

Due to the significant investments the District has in capital assets, depreciation continues to be one the largest operating expenses at 23-26% of total operating expenses per year. Unlike the other expenses listed, depreciation is not a cash expense.

The second largest department, by expenses, at 21% and 23% of total expenses is for wastewater treatment, which remained constant between 2020 and 2019, respectively. This department is one of the largest, with eight full time employees and one part-time employee. One of the largest expenses, excluding salaries and benefits, in this department is electric, which accounted for over \$167,000 and \$218,000 in expenses in 2020 and 2019, respectively.

The third highest department by expenses is the water treatment and distribution department with twelve full time employees. The related expenses of 20% and 22% were 2020 and 2019, respectively. We are replacing meters that are under registering, with new Neptune auto-read meters. In addition, all new residential services are required to use the Neptune auto-read meters. This will reduce the need for additional meter readers in the water department and will improve the efficiency and accuracy of the meter reading process. 100% of the meters are now automated.

The first largest department is the administration department, which consists of nine full time employees and one part-time employee. The related expenses remained constant at 22% and 19% of total expenses in 2020 and 2019, respectively. The largest expense in this department, other than salaries and benefits is engineering fees.

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

The next largest department by expenses is the wastewater collection department, which consists of five full time employees. The related expenses remained constant at 8% in 2020 compared to 2019.

The smallest department is the maintenance department, which was created in fiscal year 2004 to reduce maintenance-related expenses from third-party vendors. It consists of six full time employees. It accounts for 5% of total expenses in 2020 and 2019, respectively. Labor costs in this department, except for those relating to the supervisor, are charged to the appropriate departments, based on the maintenance projects they are working on.

Wages and benefits account for 42% and 39% of the expenses in 2020 and 2019, making it the largest expense category. Depreciation expense accounts for 23% and 20%, for 2020 and 2019, respectively.

The District continues to monitor costs. The District considers cost of living increases during the budget cycle and provides merit increases based upon performance evaluations. The District follows best practices for water and wastewater systems in promoting employees who meet specified criteria for certification and licensing. The District bids out contracts for major expenses, such as health insurance, property insurance, residuals management and chemicals. The District has an arrangement with Collier County Fleet Management allowing the District to access their fuel tanks, located in Immokalee, to take advantage of bulk-usage savings.

General Fund Budgetary Highlights

Over the course of the 2020 fiscal year, the Board of Commissioners amended the District budget. These budget amendments were done primarily to a) increase operating revenue, and to b) increase operating expenses and capital funding primarily related to the District's projects, and adjust designated funds.

Original to Final Budget Variance

For the fiscal year 2020 total operating revenues were increased by \$410,000 more than originally budgeted, and total operating expenses, excluding depreciation expense, were decreased by over \$700,000.

Capital outlay – capital outlay was increased by \$1,000,000.

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

Final Budget to Actual Variance

For the fiscal year 2020 total operating revenue was approximately \$162,000 less than budgeted.

Capital Assets

The District's net capital assets as of September 30, 2020 and 2019 amounted to \$57,509,486 and \$57,690,948 (net of accumulated depreciation), respectively. This investment in capital assets includes land, construction in progress, buildings and improvements, water and wastewater plants and systems, and machinery and equipment.

Net capital asset additions included the following for the years ended September 30:

	<u>2020</u>	<u>2019</u>
Construction in progress	\$ 1,390,104	\$ 1,189,315
Buildings and improvements	-	47,313
Water and wastewater plants and systems	589,848	214,364
Machinery and equipment	22,915	375,095
	<u>\$ 2,002,867</u>	<u>\$ 1,826,087</u>

Construction in progress for 2020 was primarily for the clarifier project, Lift Station H and Master Lift Station X8 and line relocation projects.

Construction in progress for 2019 was primarily for the AC Water Main and Undersized Replacement Project funded through USDA.

The District primarily acquires its assets with the proceeds from federal capital grants and revenue bonds, supplemented by user fees. USDA Rural Development is the primary source of proceeds, because they offer low interest loans for capital improvements. We also received contributed capital in the form of new water and sewer infrastructure from developers. New equipment purchases and a system expansion are part of the District's capital improvement program. Capital purchases are acquired using bids, or Florida State Contract prices.

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

Debt

As of September 30, 2020, the District had \$31,080,969 of revenue bonds outstanding. The total amount outstanding for these categories of debt decreased, to reflect the principal payments by the District of \$901,000.

As of September 30, 2019, the District had \$31,981,969 of revenue bonds outstanding. The total amount outstanding for these categories of debt decreased, to reflect the principal payments by the District of \$868,000.

Unrestricted Net Assets

As of September 30, 2020, the District had designated \$10,155,999 in unrestricted net assets, as recommended by the auditor. The District designated \$841,000 for emergencies, \$4,138,975 for operations, \$464,495 for vehicle replacement, \$337,557 for capital equipment, and \$4,373,972 for maintenance reserve.

As of September 30, 2019, the District had designated \$8,625,177 in unrestricted net assets, as recommended by their auditor. The District designated \$761,000 for emergencies, \$3,308,656 for operations, \$527,483 for vehicle replacement, \$546,416 for capital equipment, and \$3,481,622 for maintenance reserve.

Upcoming Significant Changes or Impacts

Rate Increase: In fiscal year 2015, the District hired a rate consultant, PRMG, to determine what rate increase was needed. The Board adopted rate increases of 3% on water and for wastewater to go into effect on October 1, 2019, October 1, 2020 and October 1, 2021.

Residential - There are several residential developments that are expected to impact the revenues of the District during the next fiscal year.

Arrowhead PUD, which will consist of over 1,200 residential units at completion, has completed the first phase of their water and wastewater infrastructure. The Crestview Apartments Phase I & II (304 units) were completed and connected. The first and second phase of approximately 125 single-family units were also completed. Building on these homes had been delayed due to the impact of the nationwide housing market.

Habitat for Humanity continues to build homes in Immokalee. In December 2006, they completed the infrastructure in the Independence Subdivision Phases II, with 167 homes. Liberty PUD, with 162 single family homes has also been connected, to our system. They have completed the work for the Faith PUD, which included an additional 175 homes; and the Kaicasa PUD, which will consist of 280 homes.

IMMOKALEE WATER & SEWER DISTRICT

Required Supplementary Information

Management's Discussion and Analysis

September 30, 2020

Other Residential:

The nearby Ave Maria University campus is expected to eventually impact Immokalee with increased demand for low cost residential homes for workers. Discussions were held in previous years with Lennar Homes regarding the possibility of 5,000 to 6,000 homes in the Serenoa subdivision, however, that did not materialize following the nationwide slump in housing prices. Barron Collier has since acquired that property, and they have not yet indicated what they plan to use the property for. Collier Enterprises has withdrawn their plans to build 400 homes near the Florida Tradeport.

Commercial

The EDC continues to market the Florida Tradeport, but has been unable to secure a key industry for that location. Plans were previously approved for the CCAA USDA Manufacturing Building at the airport, and that building is complete. Collier County Public Schools completed construction on the new Bethune Education Center. Collier County Parks completed the upgrade of their South Park Community Center. Immokalee continues to attract economically viable businesses within its boundaries. IWSD installed water and wastewater infrastructure to accommodate larger retail uses. Family Dollar has completed a new building on New Market Road. IWSD continues to provide water and wastewater services to the Seminole Tribe's casino and is working on an emergency interconnect agreement for the residential component of the reservation. New commercial development continues to be planned along the fringes of downtown Immokalee. Saint Matthews House replaced their Thrift Store on Main Street. First Bank built a new facility on North 15th Street.

IWSD continues to evaluate our wastewater operations. The District has just begun the rehabilitation of three clarifiers.

The District continues to manufacture our own fertilizer branded "Organi Kalee" and markets to agricultural uses.

The A/C and Undersized Water Lines Replacement project replace and upgraded over 50 miles of water lines within Immokalee. The cost of the project was over \$20,000,000 and funded through the USDA.

Request For Information

This financial report is intended to provide an overview of the finances of the District for those with an interest in this organization. Questions concerning any information within this report, may be directed to the Executive Director of the District, 1020 Sanitation Road, Immokalee, Florida 34142.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES**

Organization

Immokalee Water & Sewer District (the "District") was created by Laws of Florida, (Section) Chapter 78-494 on July 5, 1978, under the provisions of Florida Statute, Chapter 153.53 and 189.031 for the purpose of providing water and sewer services to Immokalee, an unincorporated area of eastern Collier County, Florida. The District's enabling legislation was repealed, updated, reenacted, and codified by Laws of Florida, Chapter 98-495 on May 28, 1998. On July 1, 2005, Laws of Florida, Chapter 2005-298 amended Laws of Florida, Chapter 98-495 by expanding the District's boundaries. On June 10, 2015, Laws of Florida, Chapter 2015-205 amended Laws of Florida, Chapter 98-495 to provide for salaries/honorariums for elected District Board of Commissioner members up to \$250 each per month.

The District owns, operates, maintains and regulates its water and sewer plants and systems as an independent special district of the State of Florida. The District is governed by a seven (7) member Board of Commissioners appointed by the Governor of the State of Florida. The Board of Commissioners (the "Board") administer the District, independent from any other local governing body and serve staggered four (4) year terms.

Reporting Entity

Immokalee Water & Sewer District is financially independent of all other units of government. It is responsible for financing its own activities and the payment of its own debt. The Board of Commissioners (the "Board") has the responsibility to employ management that is responsible for the day-to-day operations of the District. The Board has absolute authority over all funds included in the entity. Immokalee Water & Sewer District is not a component unit of any other governmental unit.

The District adheres to Statement of Governmental Accounting Standards Board (GASB) Statement No. 14, "Financial Reporting Entity", as amended by GASB Statement Number 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus - An Amendment of GASB Statements No. 14 and No. 34". These Statements require the financial statements of the District (the primary government) to include its component units, if any. A component unit is a legally separate agency for which the

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Reporting Entity, continued

primary government is financially accountable or organizations whose exclusion would cause the financial statements to be misleading because of the nature and significance of their relationship with the primary government. Financial accountability is determined by the primary government's ability to appoint the voting majority of the District's board, impose its will on the organization, the existence of a financial benefit/burden relationship or fiscal dependency. Based on this criteria, there are no component units included or required to be included in the District's financial statements.

The Immokalee Water & Sewer District adheres to the requirements of Governmental Accounting Standards Board Statement Number 33 "Accounting and Financial Reporting for Non-Exchange Transactions." As such, capital related grant revenue is recorded as non-operating revenue and is reflected on the Statements of Revenues, Expenses and Changes in Net Position.

The following is a summary of the significant accounting policies used in the preparation of these financial statements:

The District adheres to the requirements of Governmental Accounting Standards Board Statement Number 34, "Basic Financial Statement and Management's Discussion and Analysis for State and Local Governments" (GASB 34). The government-wide financial statements along with the notes to the financial statements and the RSI, as noted below comprise the basic financial statements.

The basic financial statements of the District are comprised of the following:

- Government-wide financial statements
- Notes to the financial statements
- Required supplementary information other than MD&A

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statements of Net Position and the Statements of Revenues, Expenses and Changes in Net Position) report information on all of the activities of the District and do not emphasize fund types. These business-type activities comprise the primary government. Business-type activities rely on user fees and charges to support its activities rather than taxes and intergovernmental revenues. The purpose of the government-wide financial statements is to allow the user to be able to determine if the District is in a better or worse financial position than the prior year. The District uses only one fund.

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement Number 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability in the government-wide financial statements, rather than as expenditures.

The Statements of Revenues, Expenses and Changes in Net Position demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital improvements of a particular function.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Government-Wide Financial Statements, continued

Operating revenues are considered to be revenues generated by services performed and/or by fees charged such as water and sewer usage, connection, inspection fees and flow testing.

Budgetary Information

As required, the District uses only one fund to account for its activities and, therefore, it is considered a major fund. The District has elected to report budgetary comparison of its major fund as required supplementary information (RSI).

Fund Accounting

The District's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, recording cash and other financial resources, together with all related liabilities and net assets (fund equity balances) and changes therein.

The accompanying financial statements reflect Business - Type Activities and are classified as a single Proprietary Fund Type - Enterprise Fund. This fund accounts for the cost of services provided by the District as well as the revenues earned by the District.

Business - Type Activities - Proprietary Fund Type

Enterprise Fund - An enterprise fund is used to account for operations (1) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Measurement Focus

Proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, assets and liabilities associated with the operation of these funds are included on the statements of net position. Proprietary fund-type operating statements present increases (i.e. revenues) and decreases (i.e. expenses) in total net position. Operating revenues and expenses result from providing water distribution as well as wastewater collection and treatment to members within the District's boundaries. Generally, other revenues and expenses are treated as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Basis of Accounting

The proprietary fund type is presented on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded in the period earned and expenses are recorded in the period the liability is incurred.

Budgetary Process

The District operates under a fixed budget for control purposes. The budget and amendments, if any, are approved by the Board of Commissioners. The budget is prepared on a Non-GAAP accrual basis, whereby items such as capital expenditures and debt principal payments are budgeted as expenses.

The annual budget serves as the legal authorization for expenditures. Expenditures cannot legally exceed the total amount budgeted. All budget amendments, which change the legally adopted total appropriation, are approved by the Board.

The District follows these procedures in establishing budgetary data.

1. During the summer of each year, management submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing on October 1. The operating budget includes proposed expenditures and the means of financing them.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Budgetary Process, continued

2. Public hearings are conducted to obtain citizen comments.
3. The budget is adopted by approval of the Board of Commissioners.
4. Budget amounts, as shown in these financial statements, are as originally adopted or as amended by the Board of Commissioners.
5. The budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America, except as reflected in the supplementary information and as noted above.
6. The level of control for appropriations is exercised at the fund level.
7. Appropriations lapse at year-end.

The Board of Commissioners did amend the budget during the fiscal year ended September 30, 2020 to increase total budgeted net revenue by \$230,481 and an increase in budgeted expenses (including net non-operating revenue and expense) by \$230,481.

Cash

For the purpose of the Statements of Cash Flows, the District considers all highly liquid investments, including both unrestricted and restricted, with a maturity of three months or less, when purchased, to be a cash equivalent, in accordance with District policy.

Accounts Receivable/Allowance for Doubtful Accounts

Receivables include user fees for water and wastewater services provided as part of the operations by the District. The accounts receivable are recorded net of the estimated allowance for doubtful accounts. The District operates using an allowance and collection policy that ultimately provides for discontinuance of water service due to nonpayment by the user. The policy also provides for application of the respective user's security deposit upon certain criteria. Additionally, the policy requires a user landlord to satisfy any outstanding user fees (tenant) prior to allowing services to a future tenant for that landlord.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Inventory

Inventory consists of utility system parts and hardware supplies at year end. The inventories are valued at cost, which approximates market. The method used to determine the value of the inventory is the FIFO (first in-first out) method.

Capital Assets and Depreciation

Capital assets acquired by proprietary funds are reported in those funds at historical cost or estimated historical cost if actual historical cost is not available.

Donated assets are reported at estimated fair market value at the time received. Certain infrastructure-type fixed assets consisting of certain improvements such as roads, curbs, gutters and lighting systems have not been capitalized, as the District does not generally incur such expenditures. However, the systems' distribution and collection lines and pumps are capitalized and depreciated as part of the overall system. Assets acquired with a cost or fair value of \$5,000 or more and a useful life of 1 year or more are capitalized. Maintenance, repairs and minor renovations are not capitalized. The acquisition of land and construction projects utilizing resources received from Federal and State agencies are capitalized when the related expenditure is incurred.

The capital assets are depreciated using the straight-line method of depreciation over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings/Plant and Plant Equipment	10-40
Capital Improvements, Distribution Lines	5-40
Furniture, Fixtures and Equipment	3-20
Vehicles	3-7

Restricted Assets

These monies are restricted by the applicable debt covenants and grant agreements or as customer deposits.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Vacation Leave

Accumulated unpaid vacation pay is accrued when incurred in the proprietary fund. The method of accrual is in accordance with Statement of Governmental Accounting Standards Board Number 16, "Accounting for Compensated Absences" (GASB 16). This Standard provides for the measurement of accrued vacation leave using the pay or salary rates in effect at the balance sheet date. It also requires additional amounts to be accrued for certain salary related payments associated with the payment of compensated absences such as FICA and retirement benefits only. Accrued unused vacation is accrued and paid at termination. Accrued unused sick time is not paid at termination.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District because at present it is not considered necessary to assure budgetary control or to facilitate effective cash planning and control.

Membership (Connection) Fees

Water (connection) service installation fees are dedicated for the system expansion and are treated as contributed capital but recognized as revenue when received (due to the District) by the District.

Income Taxes

The District, as a governmental unit, is exempt from income taxes under current provisions of the Internal Revenue Code and Florida State Law.

Fund Equity

Grants, entitlements or shared revenues which are externally restricted for capital acquisition or construction are treated as contributed capital but recorded as revenue when due to the District. Contributed or donated fixed assets are also treated as contributed capital but recorded as revenue when due the District. Reserved retained earnings represent those portions of fund equity legally restricted by debt covenants for current and future debt service.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain amounts in the financial statements have been reclassified to conform with the current year presentation. These reclassifications had no effect on the results of operations or net assets.

Subsequent Events

Subsequent events have been evaluated through May 19, 2021, which is the date the basic financial statements were available to be issued.

Application of FASB Pronouncements to Proprietary Funds

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting", the District has elected not to apply those FASB Statements and Interpretations issued after November 30, 1989. Only GASB pronouncements issued after this date will be adopted by the District.

Accounting Pronouncement GASB Statement No. 42

The District adheres to Government Accounting Standards Board Statement No. 42, "Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries" (GASB Statement No. 42). GASB Statement No. 42 establishes accounting and financial reporting standards for impairment of capital assets.

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Accounting Pronouncement GASB Statement No. 42, continued

A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Such events or changes in circumstances that may be indicative of impairment include evidence of physical damage, enactment or approval of laws or regulations or other changes in environmental factors, technological changes or evidence of obsolescence, changes in the manner or duration of a capital asset, and construction stoppage. A capital asset generally should be considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset.

The District incurred no capital asset impairment activity for the years ended September 30, 2020 and 2019.

NOTE B - CASH AND INVESTMENTS

At September 30, 2020 and 2019, cash and cash equivalents (including both restricted and unrestricted cash and cash equivalents) were \$15,835,904 and \$14,838,329 respectively, including unrestricted cash on hand of \$3,400 and \$3,400, respectively.

Deposits

The District's deposit policy allows deposits to be held in demand deposits, savings accounts, certificates of deposit, direct obligations of the U.S. Treasury, Local Government Surplus Trust Funds, direct obligations of Federal agencies and instrumentalities and money market accounts. All cash deposits are held in qualified public depositories pursuant to Florida Statutes Chapter 280, "Florida Security for Public Deposits Act."

Unrestricted and Restricted Deposits

The District's deposits were categorized to give an indication of the level of risk assumed by the District at year-end. All deposits were fully insured by Federal Depository Insurance or collateral pursuant to the Public Depository Act (Florida Statute 280). As such, the District resolved to abide by Florida Statute 218.415(17).

NOTE B - CASH AND INVESTMENTS, CONTINUED

Restricted Deposits

Restricted deposits are required by the District's outstanding debt agreements as well as grant and other agreements. Restricted deposits also include customer deposits.

Restricted deposits (carrying amounts) consist of the following at September 30:

	<u>2020</u>	<u>2019</u>
Construction account	\$ 112,310	\$ 51,234
Bond sinking fund reserve	2,422,057	2,075,595
Department of Environmental Protection- Deep Well Injection Reserve	239,737	237,687
Customer deposits	1,457,684	1,353,457
Loan debt service	29,397	25,184
Special assessment - ArrowHead	409,735	353,510
Special assessment - SR 29	26,056	-
	<u>\$ 4,696,976</u>	<u>\$ 4,096,667</u>

Investments

Florida Statutes and the District's investment policy authorize investments in certificates of deposit (CD's). Certificates of deposit whose values exceed the amount of the Federal Depository Insurance are collateralized pursuant to the Public Depository Security Act of the State of Florida. The District had \$1,135,999 and \$1,110,486 (bank and book balance) invested in certificates of deposit at September 30, 2020 and 2019, respectively. The CDs carried interest rates of 1.51% and 2.96% at September 30, 2020. The CDs mature on July 17, 2021 and December 4, 2022, respectively.

NOTE C - ACCOUNTS RECEIVABLE, NET

Accounts receivable, net, consist of the following at September 30:

	<u>2020</u>	<u>2019</u>
Customer receivables (water/sewer)	\$ 710,787	\$ 780,568
Less allowance for doubtful accounts	<u>(69,743)</u>	<u>(69,743)</u>
Net receivables	<u>\$ 641,044</u>	<u>\$ 710,825</u>

NOTE D - GRANT AND ASSESSMENT RECEIVABLES

Grant and assessment receivables consisted of the following at September 30:

	<u>2020</u>	<u>2019</u>
Grants receivable	\$ -	\$ -
Special Assessments	<u>1,137,073</u>	<u>1,215,493</u>
	<u>\$ 1,137,073</u>	<u>\$ 1,215,493</u>

The District levied a special assessment of \$1,060,900 on system users benefiting from the system improvements (ArrowHead) funded by the \$4,932,000 Series 2013 Revenue Bonds during the year ended September 30, 2014. The assessment collections are restricted to principal reduction of the Series 2013 Revenue Bonds. The assessment was initially levied through the Collier County Tax Collector on November 1, 2013. The assessment is a one time assessment payable in full or over 20 years by the affected system users. The special assessment had the following activity for the years ended September 30:

	<u>2020</u>	<u>2019</u>
Balance, October 1, as restated	\$ 743,756	\$ 790,275
Assessment levied	-	-
Collections	<u>(53,426)</u>	<u>(46,519)</u>
	<u>\$ 690,330</u>	<u>\$ 743,756</u>

The District levied a special assessment of \$496,731 on system users benefiting from system improvements on State Road 29 during the year ended September 30, 2019. The assessment was initially levied through the Collier County Tax Collector on November 1, 2018. The assessment is a one time assessment payable in full or over 20 years by the affected system users. The special assessment had the following activity for the years ended September 30:

	<u>2020</u>	<u>2019</u>
Balance, October 1, as restated	\$ 471,737	\$ -
Assessment levied	-	496,731
Collections	<u>(24,994)</u>	<u>(24,994)</u>
	<u>\$ 446,743</u>	<u>\$ 471,737</u>

				Related debt	<u>(31,750,944)</u>
				Net Investment in Capital Assets	<u>\$ 25,758,542</u>

NOTE E - CAPITAL ASSET ACTIVITY, CONTINUED

The depreciation expense for the years ended September 30, 2020 and 2019 was \$2,184,329 and \$1,875,143, respectively. During the years ended September 30, 2020 and 2019, the District continued construction on its system-wide improvements.

During the year ended September 30, 2018, the District early implemented GASB Statement No. 89, "Accounting for Interest Cost Incurred Before the End of a Construction Period". The implementation of the pronouncement requires the interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statement prepared using the economic resources measurement focus. As a result, no interest costs were capitalized on the project for fiscal years ended September 30, 2020 and 2019.

NOTE F - RETIREMENT PLANS

Plan Description and Provisions

Section 401(a) Plan

The District historically offered all its employees the opportunity to participate in an individual government employer-sponsored defined contribution 414(h) Money Purchase Pick-Up Retirement Plan and Trust (the "Plan"). Effective January 1, 2009, the District restated its retirement plan. As such, the restated plan qualifies as a 401(a) Money Purchase defined contribution plan. The Plan is administered by a third party administrator. The employer funds substantially all the administrative costs of the Plan.

The Plan allows all employees to participate after three (3) months creditable employment. Employees who elect to participate must contribute three (3%) percent of their gross wages, excluding overtime compensation, up to \$3,000. If the employee desires to defer more than \$3,000 they can defer those amounts into the available IRC Section 457 Plan. The employer is required to contribute six (6%) percent of the respective participating employees' gross wages, excluding overtime compensation. Employer contributions into the 401(a) Plan are only required for those participating employees who contribute three (3%) of their gross wages, as defined. During the years ended September 30, 2020, 2019, and 2018, the District contributed 100% of its required contributions.

NOTE F - RETIREMENT PLANS, CONTINUED

Plan Description and Provisions, continued

Section 401(a) Plan

The District's gross contributions (employer portion) to the Plan for the years ended September 30, 2020, 2019 and 2018 were \$157,046, \$142,584, and \$132,710 respectively. Employee contributions to the Plan were \$78,363, \$73,939 and \$61,450, respectively for the years ended September 30, 2020, 2019, and 2018, respectively. There were no forfeitures used to reduce employer contributions.

Benefits available are limited to the value of the respective employee's individual account. Individuals direct the investment of their individual account. Benefits vest at a rate of twenty (20%) percent per year of creditable service and vest in full after five years of creditable service. A creditable year of service is defined as a year in which an eligible participant completes 1,000 hours of service. Employees immediately vest in their contributions. Normal retirement shall be considered to be attainment of age 55 and completion of five (5) creditable years of service. Employees who fail to complete five (5) years creditable service vest in their respective accounts at twenty (20%) percent per completed year of creditable service. The Plan requires retirement at April 1 following the date the participant reaches age 70 1/2. The Plan provides that forfeitures of employer contributions by non-vested terminated employees are to be used to offset future employer contributions. Therefore, employer contributions made to employee accounts who fail to complete the respective year revert back to the employer. Benefits available to the employee from the Plan are those generated from the respective employees account. The employees account may lose principal. The District has no liability for losses, if any, incurred by the plan. Loans to participants are permitted from the participant's specific account. Participants should refer to the complete plan document for specific detail of the Plan.

Section 457 Plan

Effective November 1, 2012, the District approved a resolution to establish a Deferred Compensation Plan to be made available to all eligible District employees pursuant to Section 457 of the Internal Revenue Code (IRC). The Plan is administered by a third party administrator. The employer funds substantially all administrative costs of the Plan. All contributions made to the Plan are voluntary deductions from employees' wages, with no contributions to the Plan made by the District. Employees are eligible to participate after 3 months employment and attainment of age 18. Deferral amounts are limited per IRS Code Section 457(e)(15). For the year ended September 30, 2020 the deferral limit to the Plan was \$19,500. Employees are immediately vested in their salary deferral amounts.

NOTE G - REVENUE BONDS PAYABLE, CONTINUED

Bond Resolutions

The bond resolutions established certain accounts and determined the order in which certain revenues are to be deposited into those accounts. In addition, there are various other covenants established by the official statements and District resolutions, including such items as debt service coverage, reporting requirements, and maintenance of facilities. Management believes that it has complied, in all material respects, with these covenants. All required Reserve balances at September 30, 2020 and 2019, were maintained and are reflected as restricted deposits within these financial statements.

A summary of revenue bond debt service requirements to maturity is as follows September 30:

<u>Years Ending September 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 769,000	\$ 957,240	\$ 1,726,240
2022	798,000	928,853	1,726,853
2023	828,000	899,305	1,727,305
2024	859,000	868,496	1,727,496
2025	892,000	836,410	1,728,410
2026 - 2030	4,815,969	3,667,640	8,483,609
2031 - 2035	5,847,000	2,721,295	8,568,295
2036 - 2040	3,932,000	1,893,116	5,825,116
2041 - 2045	3,908,000	1,319,329	5,227,329

2031	47,983	612	48,595
	<u>\$ 462,959</u>	<u>\$ 71,586</u>	<u>\$ 534,545</u>

Loans payable - SRF related interest expense was \$12,448 and \$14,105 for the years ended September 30, 2020 and 2019, respectively. No loan interest costs were capitalized in either year.

NOTE I - CAPITAL LEASE

On October 31, 2018, the District entered into a sixty (60) month, 0% interest capital lease agreement, for the lease of eight (8) vehicles, in the amount of \$219,307. Monthly payments are \$3,655 plus monthly maintenance fees. Payments began in April, 2019 with final payment due in March 2024. The lease agreement is collateralized by the respective eight (8) vehicles.

The following is a summary of the District's capital lease payable for the years ended September 30:

	Amount
Balances - September 30, 2018	\$ -
Proceeds	219,307
Principal payments	<u>(21,931)</u>
Balances - September 30, 2019	197,376
Proceeds	-
Principal payments	<u>(43,861)</u>
Balances - September 30, 2020	<u>\$ 153,515</u>

The cost of capital assets under lease was \$219,307 at September 30, 2020. The accumulated depreciation was \$65,792 and the current year depreciation expense was \$25,586 on those capital assets.

**IMMOKALEE WATER & SEWER DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 September 30, 2020 and 2019**

NOTE I - CAPITAL LEASE, CONTINUED

A summary of capital lease debt service requirements to maturity is as follows at September 30:

Years Ending September 30	Principal	Interest	Total
2021	\$ 43,861	\$ -	\$ 43,861
2022	43,861	-	43,861
2023	43,861	-	43,861
2024	21,932	-	21,932
	<u>\$ 153,515</u>	<u>\$ -</u>	<u>\$ 153,515</u>

Interest expense related to the capital lease was \$0 and \$0 for the years ended September 30, 2020 and 2019, respectively.

NOTE J - LINE OF CREDIT

On October 15, 2018, the District renewed an agreement with a financial institution to establish an uncollateralized \$1 million revolving Line of Credit (LOC) to be used for emergency situations. The LOC is available, although the District had not borrowed any funds from the LOC for the years ended September 30, 2020 or 2019. The LOC required interest paid quarterly and principal at maturity. Interest accrues at Prime Rate plus .50% with a floor rate of 3.75%. The LOC was due in full on October 15, 2020 but was renewed through October 15, 2022. Interest rate at September 30, 2020 was 3.75%.

NOTE K - BOND ANTICIPATION NOTE

On May 4, 2020 the District entered into a Bond Anticipation Note (BAN) with a financial institution to provide interim construction financing for improvements to water facilities, clarifier project, in the amount of \$944,000. Interest payable at 2.15% is due every six months. The BAN requires accrued interest and principal payable every six (6) months and upon maturity. The note is collateralized by a commitment from the USDA Rural Development Program. At September 30, 2020 and 2019, the BAN payable balance was \$53,501 and \$0, respectively. Interest expense for the years ended September 30, 2020 and 2019 was \$0 and \$0 and no loan interest costs were capitalized. Upon completion of the related construction project, the BAN will be replaced by permanent financing from USDA by the \$944,000 Series 2021, Water and Sewer Revenue Bonds.

NOTE L - ACCRUED COMPENSATED ABSENCES

Employees of the District are entitled to paid vacation based on length of service and job classification at termination. Unused accrued sick time is not paid at termination. Accrued compensated absences had the following activity for the year ended September 30:

	<u>Amount</u>
Accrued compensated absences, September 30, 2018	\$ 127,810
Net Increase	<u>21,264</u>

NOTE M - CONTINGENCIES

Litigation

The District, from time to time, is involved as a defendant or a plaintiff in certain litigation and claims arising in the ordinary course of operations. As such, the District maintains third party insurance coverages. In the opinion of legal counsel, the range of potential recoveries or liabilities will not materially affect the financial position of the District. The District intends to vigorously defend all claims unless first settled. Potential losses, if any, may be recoverable through insurance coverages.

Federal Grants

Grant monies received by the District are for specific purposes and are subject to review by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience, the District does not believe that such disallowances, if any, would have a material effect on the financial position of the District.

The operations of the District are dependent upon the condition of the District's facilities. These facilities are currently being rehabilitated and improved substantially through the receipt of federal funding. Loss or reduction of such funding would have a material effect on the operations of the District.

**IMMOKALEE WATER & SEWER DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 September 30, 2020 and 2019**

NOTE N - PRIOR PERIOD ADJUSTMENT

Restatement of Net Position

The ending net position of the District for the year ended September 30, 2019 was adjusted as follows:

	<u>Amount</u>
Net Position, September 30, 2019 as originally stated	\$ 39,841,973
Adjustment to include refund payable for prior year billing error	(182,138)
Adjustment to include receivable for assessment made in the prior year	<u>496,731</u>
Net Position, September 30, 2019, as restated	<u>\$ 40,156,566</u>

A correction was posted for a fiscal year 2019 billing system error.

A special assessment levied on system users for the year ended September 30, 2019 was not originally recorded during the year ended September 30, 2019. The effect of the prior period adjustment is to increase assets and capital contributions for the fiscal year ended September 30, 2019.

NOTE O - NET POSITION (NET ASSETS)

Restricted net assets consist of the following at September 30:

	<u>2020</u>	<u>2019</u>
Restricted assets	\$ 5,834,049	\$ 5,312,160
Less: liabilities payable from restricted cash	<u>(2,512,146)</u>	<u>(3,129,580)</u>
	<u>\$ 3,321,903</u>	<u>\$ 2,182,580</u>

Unrestricted net assets consist of the following at September 30:

	<u>2020</u>	<u>2019</u>
Designated for emergencies	\$ 841,000	\$ 761,000
Designated for operations	4,138,975	3,308,656
Designated for vehicle replacement	464,495	527,483
Designated for capital equipment	337,557	546,416
Designated for maint. reserve - wastewater	3,549,492	3,069,382
Designated for maint. reserve - water	<u>824,480</u>	<u>412,240</u>
Total Designated	10,155,999	8,625,177
Undesignated	<u>2,838,265</u>	<u>4,336,312</u>
Total unrestricted net assets	<u>\$ 12,994,264</u>	<u>\$ 12,961,489</u>

NOTE P - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees, and natural disasters.

Insurance programs for general/professional liability, automobile, and property are through commercial insurance. The District retains the risk of loss, on insured claims, up to a deductible amount (ranging from 0% to 5% of total insured value depending on the type of loss) with the risk of loss in excess of this amount transferred to the insurance carrier. Limits of general liability are \$1,000,000 per occurrence. The District is third party insured for employee health as well as workers' compensation.

NOTE Q - COMMITMENT

On July 23, 2019, the USDA obligated funds to the District for a \$2,760,236 Clarifier Rehabilitation Project to be funded with a \$944,000 Series 2021 Water and Sewer Revenue bonds and a \$765,000 grant. The remaining funds will be provided by the District. The project began in June 2020 and is estimated to be completed in December 2021. The Project is to be funded initially by the \$944,000 BAN. As of September 30, 2020, \$53,501 was expended for this project.

NOTE R - SUBSEQUENT EVENT

Subsequent to year end, the District approved and submitted a proposed local bill (HB1637) to the State of Florida Legislature to amend the Laws of Florida, Chapter 98-495 to clarify that existing Board members whose term has expired may serve until a successor Board member is appointed.

NOTE S - COVID 19

In early March 2020, the World Health Organization classified the coronavirus outbreak "COVID-19" as a global pandemic, and it, unfortunately, continues to spread. Business continuity, including supply chains and consumer demand across a broad range of industries and countries, have been severely impacted, as governments and their citizens take significant and unprecedented measures to mitigate the consequences of the pandemic. On April 1, 2020, Florida Governor, Ron DeSantis ordered all Floridians to stay home, to lock down the State against the Coronavirus. Certain governmental activity was cancelled and/or severely limited.

The District has adapted its operations to accommodate the current environment. However, the full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to instability in financial markets. Management is actively monitoring the local situation on its financial condition, liquidity, operations, donors, industry, and workforce. Given the daily evolution of COVID-19 and the global and local responses to curb its spread, the District is not able to estimate the future effects of COVID-19 on its results of operation, financial condition, or liquidity for fiscal year 2020-21.

IMMOKALEE WATER & SEWER DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year ended September 30, 2020

Page 42 of 55

NOTE A - BASIS OF PRESENTATION

The Schedule of Expenditures of Federal Awards has been prepared on an accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America and is in accordance with the provisions of the Uniform Guidance less any unpaid disputed retainage.

Expenditures reported on the Schedule of Expenditures of Federal Awards include cash disbursements, whether capitalized or expensed, during the fiscal year as well as loan and grant related amounts recorded as payable at year end. Revenues reported on the Schedule of Expenditures of Federal Awards include income recognized including loan and grant receivables recorded at year end. Cash receipts that were deferred are footnoted as such.

NOTE B - INDIRECT COSTS

The District did not routinely allocate costs to Federal Awards. Costs charged to such programs were direct costs unless specifically incurred for the program and allowed and indicated as such.

The District has elected not to use the 10% de minimus indirect cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL
 CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
 AND OTHER MATTERS BASED ON AN AUDIT OF
 BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
 WITH GOVERNMENT AUDITING STANDARDS**

Board of Commissioners
 Immokalee Water & Sewer District
 1020 Sanitation Road
 Immokalee, Florida 34142

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States of America, the basic financial statements of the business-type activities of Immokalee Water & Sewer District (the "District") which comprise the statement of net position as of September 30, 2020, and the related statements of revenues, expenses and changes in net position and cash flows for the year then ended and the related notes to the financial statements and have issued our report thereon dated May 19, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Immokalee Water & Sewer District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Immokalee Water & Sewer District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Immokalee Water & Sewer District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented or detected and

INTEGRITY SERVICE EXPERIENCE

corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies in internal control may exist that have not been identified. We did, however, identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs, identified as item 2018-1 that we consider to be material weaknesses, as defined previously.

Further, we also noted certain other matters that we have reported in our Report to Management dated May 19, 2021.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Immokalee Water & Sewer District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Program/Project and on Internal Control Over Compliance Required by the Uniform Guidance

Board of Commissioners
 Immokalee Water & Sewer District
 1020 Sanitation Road
 Immokalee, Florida 34142

Report on Compliance for Each Major Federal Program

We have audited Immokalee Water & Sewer District's compliance with the types of compliance requirements described in the OMB Compliance Supplement as applicable, that could have a direct and material effect on each of Immokalee Water & Sewer District's major federal programs for the year ended September 30, 2020. Immokalee Water & Sewer District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Immokalee Water & Sewer District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Immokalee Water & Sewer District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

INTEGRITY SERVICE EXPERIENCE

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Immokalee Water & Sewer District's compliance with those requirements.

Opinion on Each Major Federal Program

In our opinion, Immokalee Water & Sewer District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

Report on Internal Control Over Compliance

Management of Immokalee Water & Sewer District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Immokalee Water & Sewer District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Immokalee Water & Sewer District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of the Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**IMMOKALEE WATER & SEWER DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - FEDERAL
AWARDS, CONTINUED
Year ended September 30, 2020**

Section II- Financial Statement Findings

2018-1 Condition: The financial reporting of the District related to the construction project and payable was deficient and did not allow for sufficient review of account balances and supervision of data entry.

Questioned Costs: None

Criteria: Accurate monthly and annual financial information should be prepared and provided to management and the Board on a timely basis.

Context: Significant adjustments to the account balances as of and for the year ended September 30, 2018 were required during the audit of the financial statements.

The initial trial balance provided for the audit contained incorrect balances for accounts payable, retainage payable, contributed capital, net assets and fixed asset additions.

Cause: Turnover of administrative staff and increase in the volume and complexity of financial transaction postings are beyond the experience and training of the current staff.

Effect: Material weakness. Financial information provided to stakeholders during the fiscal year ended September 30, 2018 did not accurately reflect the District's financial position as significant adjustments were proposed during the audit process. These adjustments caused the audit process to be more time consuming and therefore delayed. It also makes audit issuance difficult to meet the Federal Single Audit reporting deadlines.

Recommendation: We recommend that the District obtain or designate a qualified individual to provide assistance to review monthly account balances and prepare month-end closing adjustments.

**IMMOKALEE WATER & SEWER DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS - FEDERAL
AWARDS, CONTINUED
Year ended September 30, 2020**

Section II- Financial Statement Findings, continued

Fiscal Year 2019 Addendum

During fiscal year ended September 30, 2019, the District contracted an accounting professional experienced in governmental accounting to assist in the monthly and annual closing and reconciliation process. As a result significant improvements were made, however not all areas were addressed due to the timing of implementation. As such, several audit adjustments were still proposed. The reconciliations and adjustments caused the audit process to be delayed and time consuming. The District, with the assistance of the contracted accounting professional, has proceeded to implement a systematic process of closing and reconciling and is committed to continuing this service.

Current Year Addendum

During fiscal year ended September 30, 2020, the District continued to experience turnover in administrative staff. A new Executive Director was hired during the fiscal year ended September 30, 2020 and a Finance Director was hired subsequent to year end. Efforts are being focused to systematically review the accounting and operations of the District to improve the closing and reconciling process however, significant audit adjustments were proposed due to the timing of the implementation.

Section III- Federal Award Findings and Questioned Costs

There were no audit findings related to Federal Awards required to be reported by 2 CFR, Section 200.516(a).

Section IV- Status of Federal Prior Year Findings

The current status is noted above in Section II.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE
WITH SECTION 218.415, FLORIDA STATUTES

Board of Commissioners
 Immokalee Water & Sewer District
 1020 Sanitation Road
 Immokalee, Florida 34142

We have examined Immokalee Water & Sewer District's compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020. Management is responsible for Immokalee Water & Sewer District's compliance with those requirements. Our responsibility is to express an opinion on Immokalee Water & Sewer District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about Immokalee Water & Sewer District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on Immokalee Water & Sewer District's compliance with specified requirements.

In our opinion, Immokalee Water & Sewer District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of the Immokalee Water & Sewer District and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT TO MANAGEMENT

Board of Commissioners
 Immokalee Water & Sewer District
 1020 Sanitation Road
 Immokalee, Florida 34142

We have audited the accompanying basic financial statements of Immokalee Water & Sewer District (the "District") as of and for the year ended September 30, 2020 and have issued our report thereon dated May 19, 2021.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America and Chapter 10.550, Rules of the Florida Auditor General. We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards. Disclosures in that report, which is dated May 19, 2021, should be considered in conjunction with this report to management.

Additionally, our audit was conducted in accordance with Chapter 10.550, Rules of the Auditor General, which governs the conduct of local governmental entity audits performed in the State of Florida. This letter included the following information, which is not included in the aforementioned auditor's report:

- Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Prior year comments that have not been resolved are repeated and updated below.
- Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. No such recommendations were noted to improve financial management except as noted below.

INTEGRITY SERVICE EXPERIENCE

- Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.
- Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to the financial statements. The District discloses this information in the notes to the financial statements.
- Section 10.554(1)(i)5.a., Rules of the Auditor General, requires a statement be included as to whether or not the local government entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- Pursuant to Sections 10.554(1)(i)5.b. and 10.556(7), Rules of the Auditor General, we have applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. In connection with our audit, we determined that the District did not meet any of the criteria of a deteriorating financial condition as described in Auditor General Rule Section 10.554(1)(i)(6).c.
- Pursuant to Section 10.544(1)(i)5.b.2., Rules of the Auditor General, if a deteriorating financial condition(s) is noted then a statement is so required along with the conditions causing the auditor to make such a conclusion. No such conditions were noted.
- Pursuant to Section 10.554(1)(i)5.c., Rules of the Auditor General, requires a statement indicating a failure, if any, of a component unit special district to provide financial information necessary to a proper reporting of the component unit within the audited financial statements of this entity (F.S. Section 218.39(3)(b)). There are no known component special districts required to report within these financial statements.
- Section 10.556(10)(a), Rules of the Auditor General, requires that the scope of our audit to determine the entity's compliance with the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that the District complied with Section 218.415, Florida Statutes as reported in our Independent Accountant's Report on Compliance with Section 218.415, Florida Statutes dated May 19, 2021, included herein.
- Section 10.557(3)(m), Rules of the Auditor General, requires a notarized affidavit, related to impact fees, signed and sworn to be the Chief Financial Officer be included in the audit report. No such affidavit is included as the District has not implemented any Impact Fees.

PRIOR YEAR COMMENTS:

2018-1 See finding 2018-1 noted in the Schedule of Findings and Questioned Costs - Federal Awards - Material Weakness.

2018-3 Fixed Asset Schedules Should be Complete and Maintained Accurately

During the audit, it was noted that the depreciation schedule's beginning accumulated depreciation balance did not reconcile to prior year audited financial statements. It was also noted that the depreciation method used was not consistent between all fixed assets. The District was utilizing straight line and bonus depreciation methods. We recommend the District correct the fixed asset schedule beginning accumulated depreciation and strictly use only the straight line depreciation method for all fixed assets.

Fiscal Year 2019 Addendum:

The District continued to utilize two different depreciation methods during fiscal year ended September 30, 2019 and the beginning accumulated depreciation did not reconcile to the prior year ending balance. Therefore, the prior year comment is repeated.

Current Year Addendum:

During the fiscal year ended September 30, 2020, the fixed asset schedule was reconciled and adjusted to agree to the prior year ending balance. In addition, the depreciation methods of all assets were adjusted to the straight line method, therefore the comment is resolved.

CURRENT YEAR COMMENTS:

2020-1 Reconciliation of Account Balances Should Be Performed Routinely and Timely

During the audit, it was noted that the District was unable to provide an accounts payable listing and fixed asset reconciliation that agreed to the balances recorded at fiscal year-end.

We recommend that the accounting staff reconcile all account balances on a monthly basis, ensuring that all balance sheet accounts agree to subsidiary ledgers. These reconciliations should be performed on a monthly basis and any differences or discrepancies investigated and corrected.

2020-2 Recalculation of Billing Rates Should Be Performed

During the billing procedures performed, it was noted that eight (8) of the twenty-five (25) commercial accounts selected for testing contained an incorrect billing rate. The error was not discovered for several months as the District did not perform a recalculation of billings for all customer types to verify rates. Upon discovery, the error was corrected by the third party billing company. We recommend that the District recalculate and test billings for all customer types upon implementation of approved rate changes.

2020-3 SR 29 Special Assessment not Recorded

During the year ended September 30, 2019, the District levied special assessments on system users benefiting from system improvements on State Road (SR) 29. The assessment was initially levied through the Collier County Tax Collector on November 1, 2018. The original assessment was not recorded as a receivable by the District at the time. This resulted in the understatement of net position for the fiscal year ended September 30, 2019 and, consequently, a restatement of the ending net position was recorded for the fiscal year ended September 30, 2019 in the amount of \$496,731 during the year ended September 30, 2020.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of the Board of Commissioners, management, the Auditor General of the State of Florida and other federal and state agencies. This report is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "Tuscán & Company, P.A." with a stylized flourish at the end.

June 10, 2021

Sherrill F. Norman, CPA
Auditor General, State of Florida
Claude Denson Pepper Building
111 West Madison Street
Tallahassee, Florida 32399-1450

Dear Ms. Norman:

This letter is in response to the Management Letter in the Immokalee Water and Sewer District's Year Ending September 30, 2020 audit, performed by Tuscan & Company, P.A.; which was presented to and accepted by the Board on June 9, 2021.

PRIOR YEAR COMMENTS:

2018-1 See finding 2018-I and related 2019 addendum noted in the Schedule of Findings and Questioned Costs – Federal Awards.

2019 IWSD Response: The District has determined that a full-time accounting professional is necessary to perform balance sheet, revenue, expense, and payroll account reconciliations, as well as executing accounts payable and accounts receivable processes. During the April 15, 2020 meeting, the Board directed the Executive Director to initiate the hiring process of a full-time accounting professional. The hiring of a full-time employee with experience in accounting and governmental accounting practices will address this issue.

2020 IWSD Response: The District established a new position, Finance Director, and hired Mr. Brian Stewart in January 2021. Even though Mr. Stewart did not participate in the initial audit request for data and reports made in September 2020, he reviewed, corrected, and coordinated many issues, comments, and questions between February and May 2021 related to FY 2019-20.

2018-3 Fixed Asset Schedules Should be Complete and Maintained Accurately

During the audit, it was noted that the depreciation schedule's beginning accumulated depreciation balance did not reconcile to prior year audited financial statements. It was also noted that the depreciation method used was not consistent between all fixed assets. The District was using a straight line and bonus depreciation methods. We recommend the District correct fixed asset schedule beginning accumulated depreciation and strictly use only the straight-line depreciation method for all fixed assets.

2019 Addendum:

The District continued to utilize two different depreciation methods during the fiscal year ended September 30, 2019 and the beginning accumulated depreciation did not reconcile to the prior year ending balance. Therefore, the prior year comment is repeated.

Current Year Addendum:

During the fiscal year ended September 30, 2020, the fixed asset schedule was reconciled and adjusted to agree to the prior year ending balance. In addition, the depreciation methods of all assets were adjusted to the straight-line method, therefore the comment is resolved.

CURRENT YEAR COMMENTS:

2020-1 Reconciliation of Account Balances Should Be Performed Routinely and Timely

During the audit, it was noted that the District was unable to provide an accounts payable listing and fixed asset reconciliation that agreed to the balances recorded at fiscal year-end. We recommend that the accounting staff reconcile all account balances on a monthly basis, ensuring that all balance sheet accounts agree to subsidiary ledgers. These reconciliations should be performed on a monthly basis and any differences or discrepancies investigated and corrected.

2020 IWSD Response: The District is working to implement processes which will ensure balance sheet accounts agree to subsidiary ledgers.

2020-2 Recalculation of Billing Rates Should Be Performed

During the billing procedures performed, it was noted that eight (8) of the twenty-five (25) commercial accounts selected for testing contained an incorrect billing rate. The error was not discovered for several months as the District did not perform a recalculation of billings for all customer types to verify rates. Upon discovery, the error was corrected by the third-party billing company. We recommend that the District recalculate and test billings for all customer types upon implementation of approved rate changes.

2020 IWSD Response: The District is currently correcting commercial customer accounts for prior year incorrect billings. In the future, new billing rates will be tested prior to implementation.

Immokalee Water and Sewer District Response to Management Letter

Audit for Year Ended September 30, 2020

Page 3

2020-3 SR 29 Special Assessment not Recorded

During the year ended September 30, 2019, the District levied special assessments on system users benefiting from system improvements on State Road (SR) 29. The assessment was initially levied through the Collier County Tax Collector on November 1, 2018. The original assessment was not recorded as a receivable by the District at the time. This resulted in the understatement of net position for the fiscal year ended September 30, 2019 and, consequently, a restatement of the ending net position was recorded for the fiscal year ended September 30, 2019 in the amount of \$496,731 during the year ended September 30, 2020.

2020 IWSD Response: SR 29 assessments will be recorded in the correct account.

The District continues to appreciate the performance of Tuscan & Company staff during the audit to obtain reasonable assurance about the District's basic financial statements as well as their evaluation of the presentation of those statements.

Sincerely,

Sarah Catala, Executive Director
